(a) signal-aware forecasts
mean fraction bidding high, X_t
round t
swarm (50 runs)
pooled audit (L = 1-19)
clock-indexed audit
(b) signed one-step error, teacher-forced
mean p_H - kappa(H | s) (swarm histories)
round t
pooled table
clock-indexed table
(c) paired improvement, 95% intervals
rounds 2-7 (early)
rounds 8-13
rounds 14-20
endpoint y
runs resampled
runs x tables x sims
CRPS(pooled) - CRPS(clock) [x 1e-3]
> 0: clock-indexed audit better
